

Sinclair Broadcasting is misusing it's privilege as a broadcaster of news. This is a flagrant violation of fair play in a national campaign. To do nothing is to have removed the hope of a truly bipartisan and independent FCC commission. The FCC can not afford to allow this type of manipulation of the public airways by ANY entity political or not. PLEASE don't miss this opportunity to control this type of activity. It is setting a dangerous precedent especially in a Nationwide election. I would vehemently oppose any coordinated attack on President Bush by any liberal news outlet using FCC licensing privileges. Please do not let this go forward. Do your duty to the American nation as the guardian angels of our communication airways. Thanks!
